Working as Backend Developer for IOTASCALE in Islamabad. My role in the company is not limited to Backend Developer. I have experience in Backend Development (Node.js), Database (Clickhouse), Linux (Ubuntu, CentOS), VMware vSphere, and opensource tools like Zabbix (NMS), Nginx, PM2, Git, Load Balancing, Docker/Containers, Wazuh (SIEM) & ELK. I've also had hands on experience of Google Cloud and AWS Cloud, I've also expertise in Tailwind CSS & Ant Design. My primary goal at the moment is to gain experience and learn more about emerging technologies.

Languages

Node.js	Express.js
JavaScript	TypeScript
Angular	Python
HTML5	CSS3

Databases

Clickhouse	MongoDB
MySQL	PostgreSQL
Firebase	redis

DevOps

VMware	Google Cloud Services
Serverless	Docker / Containers
